

Positioning Statement

Motory International s.r.o. is a Slovakia-based subcontractor specializing in precision mechanical and electromechanical assembly. With over 30 years of experience in motor stator winding, cable harness processing, and subsystem integration, we deliver cost-effective, high-quality solutions for industrial, aerospace, and defense markets. Our dual-use expertise makes us a reliable partner for OEMs and primes seeking flexible, EU-based assembly capacity aligned with NATO and EU supply chain requirements.

Core Competencies

- Stator winding & motor assembly for industrial, aerospace, and defense drive systems
- Cable harness processing – prototypes through large-scale production
- Mechanical/electrical subsystem assembly: gear units, PCB/cable assemblies, power mechanisms
- Subcontracting for labor-intensive electromechanical production

Past Performance

- Trusted supplier to Miele, Elero, Roto
- 30+ years of subcontracting experience in Europe
- Expertise transferable to aerospace and defense dual-use platforms

Differentiators

- Central European location (Slovakia) – logistics advantage for EU/NATO supply chains
- Skilled workforce adaptable to defense/aerospace standards
- ISO-certified quality management with preventive controls
- Agile SME – fast, flexible, and customer-focused

Certifications

- ISO 9001:2015 – Quality Management
- Prepared for compliance with AS9100, IPC/WHMA-A-620 (cable harnesses), and defense sector requirements
